This is UNEVALUATED Information			

THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE.
 THE APPRAISAL OF CONTENT IS TENTATIVE.
 (FOR KEY SEE REVERSE)

1. In early November 1954, the mine at N 41-05, E 129-26 (EA363475) in the vicinity of Myongch'on-gun was not in operation. The small railroad¹ was not in use, and some unserviceable cars stood in front of the mine. 25X1
2. Twenty newly-constructed, one-story wooden buildings were in the vicinity of EA366457; and approximately 100 residences were under construction.
3. A livestock farm at EA406478 was stocked with about 2,000 pigs and 400 sheep; it was equipped with many pens and shacks.

Comment. The railroad was probably the spur line from EA362475 to EA238473. 25X1
